FAIRE UN DON

Chers amis,

Il y a quelques années, Felice Gaer déclarait à son public New Yorkais qu'elle allait se servir de son poste au Comité de l'Onu sur la torture pour faire avancer le droit à l'avortement. C'est exactement ce qu'elle a fait cette semaine, contre le Vatican. C-Fam fait le suivi depuis le début. Stefano Gennarini raconte comment le Saint Siècle a retourné la situation contre elle.

Le Guttmacher Institute est l'organisation « experte » dans le domaine des données sur l'IVG. Mais leur choix de nouvelle présidente est bien plus révélateur qu'ils pensaient. Rebecca Oas vous explique comment les militants manipulent les données, et les conséquences mondiales de ces trucages.

Diffusez largement,

Wendy Wright

Vice Présidente pour les relations gouvernementales et la communication

Le Vatican déclare à l'ONU que l'avortement est une forme de torture

Par Stefano Gennarini, J.D.

NEW YORK, 9 mai (C-FAM) Le Vatican s'est montré ferme vis-à-vis des experts de l'Onu qui accusaient l'Eglise de torture à cause de son enseignement sur l'avortement.

« Le Saint Siècle condamne la torture de quiconque, y compris ceux qui sont torturés et tués avant même de naître », a déclaré Mgr Silvano Tomasi, Nonce apostolique des Nations Unies à Genève. [Suite](#)

La nouvelle présidente de Guttmacher ne permettra pas aux faits d'entraver son agenda politique

Par Rebecca Oas, Ph.D.

NEW YORK, 9 mai (C-FAM) L'institut Guttmacher a dévoilé cette semaine l'identité de sa nouvelle présidente. Il s'agit d'une militante de l'avortement, qui s'oppose à la transparence des données statistiques dans le domaine de la santé, préférant « enfermer les universitaires dans une boîte noire » jusqu'à ce qu'ils acceptent l'existence d'un « consensus sur les chiffres ».

Ann Starrs, cofondatrice de l'organisation pro-IVG Family Care International, devrait bientôt prendre les commandes de cet institut de recherche, qui a été fondé par le Planning familial. L'institut Guttmacher se considère comme la source de données par excellence dans le domaine de la reproduction et de la

Dear Friend of the Friday Fax,

A gang of bullies met with the representatives of the Vatican last week and informed them that Christian opposition to abortion is a form of torture.

That's right, opposing abortion is considered torture!

These people are supposed to safe-guard an important international treaty that forbids real torture like pulling someone finger-nails out, or whipping them, in order to extract information or to punish.

This gang of out-of-control leftist hooligans actually thinks that if a doctor cannot tear an unborn child limb from limb then the mother has undergone torture.

Two months ago a similar committee, meant to protect the Convention on the Rights of the Child, told the Vatican that Christian teaching against abortion breaks international law, that Christian teaching on fornication is in violation of human rights!

The Vatican is not the only government these committees have abused. They have abused dozens of governments that have signed these and other treaties.

First thing to know is that these treaties DO NOT EVEN MENTION ABORTION! OR FORNICATION! These Kangaroo UN committees are simply making this stuff up!

Someone has to stop them.

C-Fam and the Friday Fax have been closely monitoring these UN committees longer than

these committees going on twenty years.

C-Fam is uniquely positioned to stop these committees or at least to slow them down. And we are committed to do that.

What have we done so far?

We have shone a bright light on the dastardly work of these bodies since 1997. We have been so effective in shining this light that at least some of these committees left New York and moved to UN headquarters in Geneva, making it harder for us to monitor them!

We wrote the book on how these committees work. The book, a paper actually, is called *Rights by Stealth* and it talks about how these committees and other UN power-actors go together at a place called Glen Cove, New York and hatched a plot to advance a right to abortion into all these human rights treaties. We told a story that no other group even had!

The second thing to know is that some governments are actually listening to these crazy committees and are changing their laws on abortion.

This makes our work all the more crucial. We need to not only monitor these creepy committees; we need to warn the whole world about the danger they present to the unborn child, to the family and now to Christian belief and practice.

Imagine, it is a violation of international law to be against abortion. It is a form of torture to be against abortion.

Someone has to stop them.

Here is what we are going to do.

1. We will continue to shine our bright Friday Fax light on what these committees do.
2. We will continue to tell folks around the world about these serious threats posed by these committees.
3. And we will continue to complain and work with good UN delegations to reign in these ideological nuts.
4. C-Fam and the Friday Fax have already been working within the UN system to reform these bodies and force them out of the abortion business. Almost alone among pro-life groups we have worked for years with powerful UN delegations on this issue and we will continue.

Here is what I need from you.

First, your daily prayers. I know you hit your prayer bones every day (That's what the great Bing Crosby used to call his "knees"). And when you hit your prayer bones I ask that you

have friends there, good ones, too. But they are outnumbered by the ideologues who run the place. So, pray for us EVERY DAY. PLEASE COMMIT TO THAT.

Second, in order to stop them we need your sacrificial gift and we need it today. It is remarkably expensive to have a full-time staff of three in New York City right near the UN. Our monthly rent alone is \$7,000 per month!

The cost of the Friday Fax is remarkably high. You might think it's free since you get it for free and it comes by email. No way. It is hugely expensive.

I estimate, what with salaries, rent, printing, publishing, and emailing (emailing 20 million emails a year is not free), it costs upwards of \$200,000 every year to produce the Friday Fax.

We can stop the out of control committees but we cannot do it without your prayers and your sacrificial financial commitment.

Can you afford \$500? How about \$100? How about \$50? Seriously, anything helps!

Please go to <http://c-fam.org/en/contribute> and give as much as you can.

Click <http://c-fam.org/en/contribute> and follow the instructions to give by credit card using our totally secure server, or give by PayPal, or snail mail. All instructions are here: <http://c-fam.org/en/contribute>

We can win this battle. We can ensure that Christian opposition to abortion will never ever become a crime. We will ensure that Christian support of the unborn child will never be considered torture!

But we cannot do it without your help and your help right now!

Pray for us every day.

Yours sincerely

Austin Ruse
